Jaxon Yon

902-399-5669 • jaxonyon@gmail.com • jaxonyon.ca • linkedin.com/in/jaxon-yon
Dartmouth, Nova Scotia

EDUCATION

Bachelor of Science with Diploma in Engineering Sept 2025 - May 2027
Saint Mary's University • Halifax, Nova Scotia • GPA 4.18/4.30 • Transferring to Dalhousie University, B.Eng. Mechanical (Sept 2027).

International Baccalaureate (IB) Diploma (Bilingual) Sept 2022 - Jul 2025
Cole Harbour District High School • Dartmouth

PROJECTS

Fledgling — Rocket Flight Computer (in progress) 2026
- Building a flight data logger for a D12-powered rocket on ESP32-S3 Feather with BMP388 barometer and LSM6DSO32 IMU, written in C++; implementing on-board apogee detection before first flight
- Designed the avionics mounting in a scratch-built airframe.

Harmful Algal Bloom Early-Warning Buoy (in progress) 2026
- Designing an open-source monitoring buoy for Dartmouth lakes. Built a custom fluorometer (OPT101 photodetector, ADS1115 ADC, transistor-driven LED); achieved a statistically clear fluorescence detection over a water blank.

CloudToucher V1 — D-Class Model Rocket 2026
- Designed and built a D-class rocket in a two-person team, from concept and OpenRocket simulation through flight; 4 launches and recoveries with no major damage. Tuned stability margin (CG vs. CP) and thrust-to-weight in simulation before first flight.
- Built the launch system: an E-class ignition controller with continuity check, safety switch and warning lights, and a collapsible launch rail.

3D-Printed Motorized Boat 2025
- Designed the hull and drivetrain in SolidWorks and printed in PLA as part of a three-person team; DC motor and propeller, with electronics in a waterproof compartment.

SKILLS

Technical: SolidWorks, C++, Python, Arduino, ESP32, OpenRocket, FDM 3D printing, soldering and circuit prototyping
Languages: English and French (bilingual)
Security clearance: Secret

WORK EXPERIENCE

Combat Engineer Nov 2023 - Present
Canadian Armed Forces, Primary Reserve, 36 Combat Engineer Regiment • Shearwater
- Qualified sapper (DP1); constructed Medium Girder Bridge and Acrow panel bridges and assembled floating rafts and bridges as part of section- and troop-level teams
- Planned and executed explosive demolitions under strict safety, accountability and verification procedures
- Trained in defensive field fortifications, route and area search, mine awareness, and chainsaw operations

Line Cook Oct 2024 - Present
Boston Pizza • Cole Harbour, Nova Scotia

Team Member/Baker Sept 2022 - Oct 2024
Tim Hortons • Dartmouth

LEADERSHIP

Enactus Saint Mary's — Halifax, NS

Lead Developer, LocalLink — Oct 2025 - May 2026

• Led a three-person team building an AI-powered trip-planning web platform from concept through deployment.

Project Manager, Gluten-Free Living — Sept 2026 - Present

Director of R&D — Oct 2025 - May 2026

• Leading development of a web and mobile app that helps people with celiac disease claim the CRA medical expense tax credit for gluten-free food costs.

Director of Research and Development, ReEquip — Oct 2025 - May 2026

• Led materials and patent research to select recycled, non-petroleum plastics for low-cost youth sports equipment.

SMU Engineering Society – VP Internal — Sept 2026 - Present

AWARDS AND HONOURS

Frank E. Milne Scholarship (2025, 2026) • **James Ryan Engineering Scholarship** (2026) • **Engineers Nova Scotia Future Engineer First Year Award** (2026)

Atlantic Engineering Competition — School Champion; 3rd of 17 teams, Atlantic Regional (2025)

Lockheed Martin CyberQUEST — Two-time Provincial Champion (2024, 2025)

Scholarships & bursaries (2025):
SMU Entrance Award, Erich Burckhardt Foundation Award, Boston Pizza International, Cole Harbour Foundation, Huestis Insurance, Nova Scotia Teachers Union.
